

England Parl. H. of C. lists

Explanation of the Two LISTS.
Note: **T**HE Number set before any *Member's Name*, directs to the same *Number* in the *Alphabet of Places*, to know for what *Place* that *Member* serves.
Note: The *First Letters* of the *Members' Surnames* are set against every *Place* they stand for; and serve, together with the *Number* set before any *Place's Name*, to search in the other *Alphabet* for the *Members* chosen for that *Place*.
For Example.
 N^o 125, *Ipwich*; Search the same *Number* in B and P, you will find,
 N^o 127. *Samuel Bernardifson*, Elq;
 N^o 125. *Richard Phillips*, Elq;
 So of the rest.
